

Ricardo M. Martins

Principal Solutions Engineer → NVIDIA Solutions Architect

20+ years in infrastructure.

10+ customer-facing.

Now focused on GPU infrastructure and AI workloads at scale

22 yrs

In IT. 10+ customer-facing
13 in cloud architecture

What I Bring

Technical depth meets customer engagement

Infrastructure & Systems

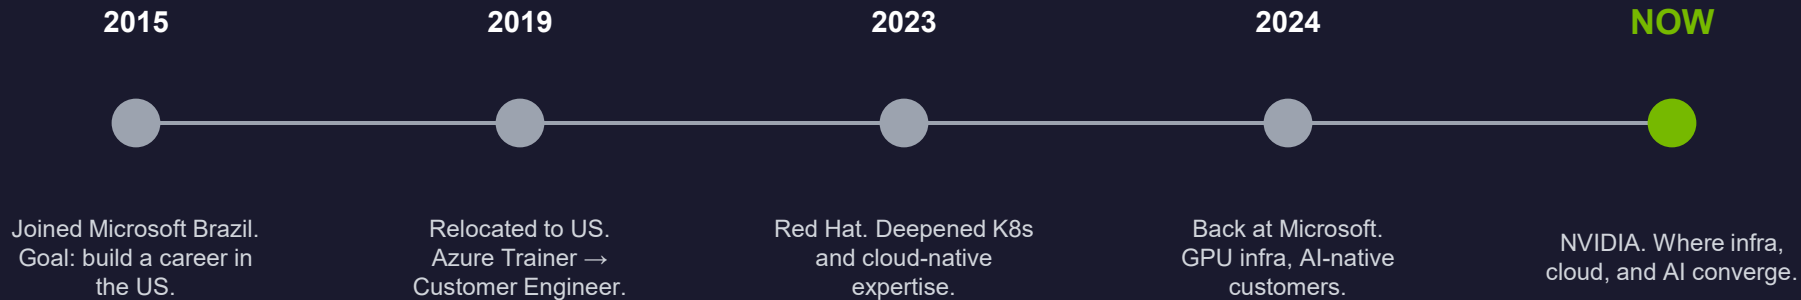

- GPU workload architecture & capacity planning
- Linux systems engineering (23 yrs)
- Kubernetes & container orchestration
- Networking: design, troubleshooting, automation
- Cloud architecture (Azure, AWS, hybrid)
- Bare-metal ops (Equinix DC experience)
- NVIDIA Certified: AI Infra & Operations

Customer & Execution

- 10+ years customer-facing (enterprise + startups)
- Trusted advisor to \$20M+/mo AI customers
- Product feedback loop (customer → product engineering)
- Technical content at scale (230K+ views)
- Team enablement (playbooks, tools, onboarding)
- Cross-team collaboration & escalation

Why NVIDIA, Why Now

The pattern: I've spent my career helping customers adopt what's next.

Cloud in 2012. Containers and Kubernetes in 2020. AI infrastructure now.

NVIDIA sits at the center of this shift. What cloud was in 2012, AI is today. And NVIDIA is leading that transformation. I was there for cloud. I want to be here for AI.

What Customers & Peers Say

"Ricardo consistently delivers immediate results, unlocks measurable revenue, and creates durable assets that scale across customers and regions."

Ahmed H. — Sr. Director, Solutions

"He's been an incredible partner. Super knowledgeable, responsive, and easy to work with. He goes above and beyond to make himself available."

Kris P. — Staff SRE (Customer)

"Your ability to simplify complex technical concepts is impressive. Your technical guidance has been a great unblocker for me and the customers."

Ahmed C. — Sr. Solutions Engineer (Peer)

Qualifications & Certifications

NVIDIA

Certified Associate: AI Infrastructure

Red Hat

Certified Specialist (Containers/K8s) • Certified Engineer (OpenShift)

Microsoft Azure

Solutions Architect Expert • DevOps Engineer • Security Engineer • Network Engineer • Administrator • AI Fundamentals

Kubernetes

CNCF Certified: Cloud Native Associate

Linux

Linux Foundation Certified SysAdmin • Conectiva Linux (2004)

AWS

Cloud Practitioner

Cross-certified across NVIDIA, Azure, Red Hat, and Kubernetes ecosystems bridging infrastructure and AI

Ready to Contribute

- Deep infrastructure background
- Proven customer-facing impact at scale
- Create assets that multiply without me
- Bridge customer needs to product engineering
- Already working with NVIDIA technology daily
